

Terraform Question #80

QUESTION:

You write a new Terraform configuration and immediately run terraform apply in the CLI using the local backend.

Why will the apply fail?

A.

Terraform needs you to format your code according to best practices first

B.

Terraform needs to install the necessary plugins first

Most Voted

C.

The Terraform CLI needs you to log into Terraform cloud first

D.

Terraform requires you to manually run terraform plan first
